

INDEX TO VOLUME VIII

(By Article Number, Not Page Number)

No attempt has been made to distinguish between individual with the same name within a given article. Thus, if John Bailey has a son named John, and he has a son named John, the index to that article will reflect but a single entry, "Bailey, John." However, if they are distinguished in the article as "John (Sr.)," "John (Jr.)," and "John III," each will have an entry.

Females are indexed by their maiden family name. Their married family name, if known, follows in parentheses. For example, the entry "Jones, Mary Jane (Smith)" indicates that Mary Jane Jones married a Mr. Smith. The advantages of doing the index in this fashion is as follows:

1. Suppose that you know that John Jones had a daughter named Mary Jane but you do not know whom she married and would like to know. Lots of luck in finding her if she is listed only as "Smith, Mary Jane."

2. Or, suppose that you are looking for a particular Guttridge Garland (of whom there might be many in the index). If you know that he married Jane Honeycutt, you can find him immediately by looking for "Honeycutt, Jane (Garland)."

- A
- Abney**, Joseph (Gen.), 95
- Adams**, John, 61; Stephen D. (Mrs.), 116; Stephen D., 57
- Adkins**, Bishop, 48; Dan (Rev.), 48; Wilson, 148
- Akin**, R.A., 52
